# Seveso Directive is very important for Republic of Moldova

- From the perspective of the Association Agreement between EU and Republic of Moldova, we are making steps in order to harmonize the national legislation with the aquis, and one of the priorities is regarding the control of major accident hazards involving dangerous substances;
- From the fact that Moldova is Party to the TEIA Convention.

# The legal background

The most important laws in Moldova, which are reflected in the articles of the TEIA CONVENTION are:

- The Law on industrial security of dangerous industrial objects;
- The Law on Hazardous Substance;
- The Law on Actions in case of emergency situations;
- The Instructive Act which defines the responsibilities of the authorities in case of an industrial accident and of environmental pollution, etc.

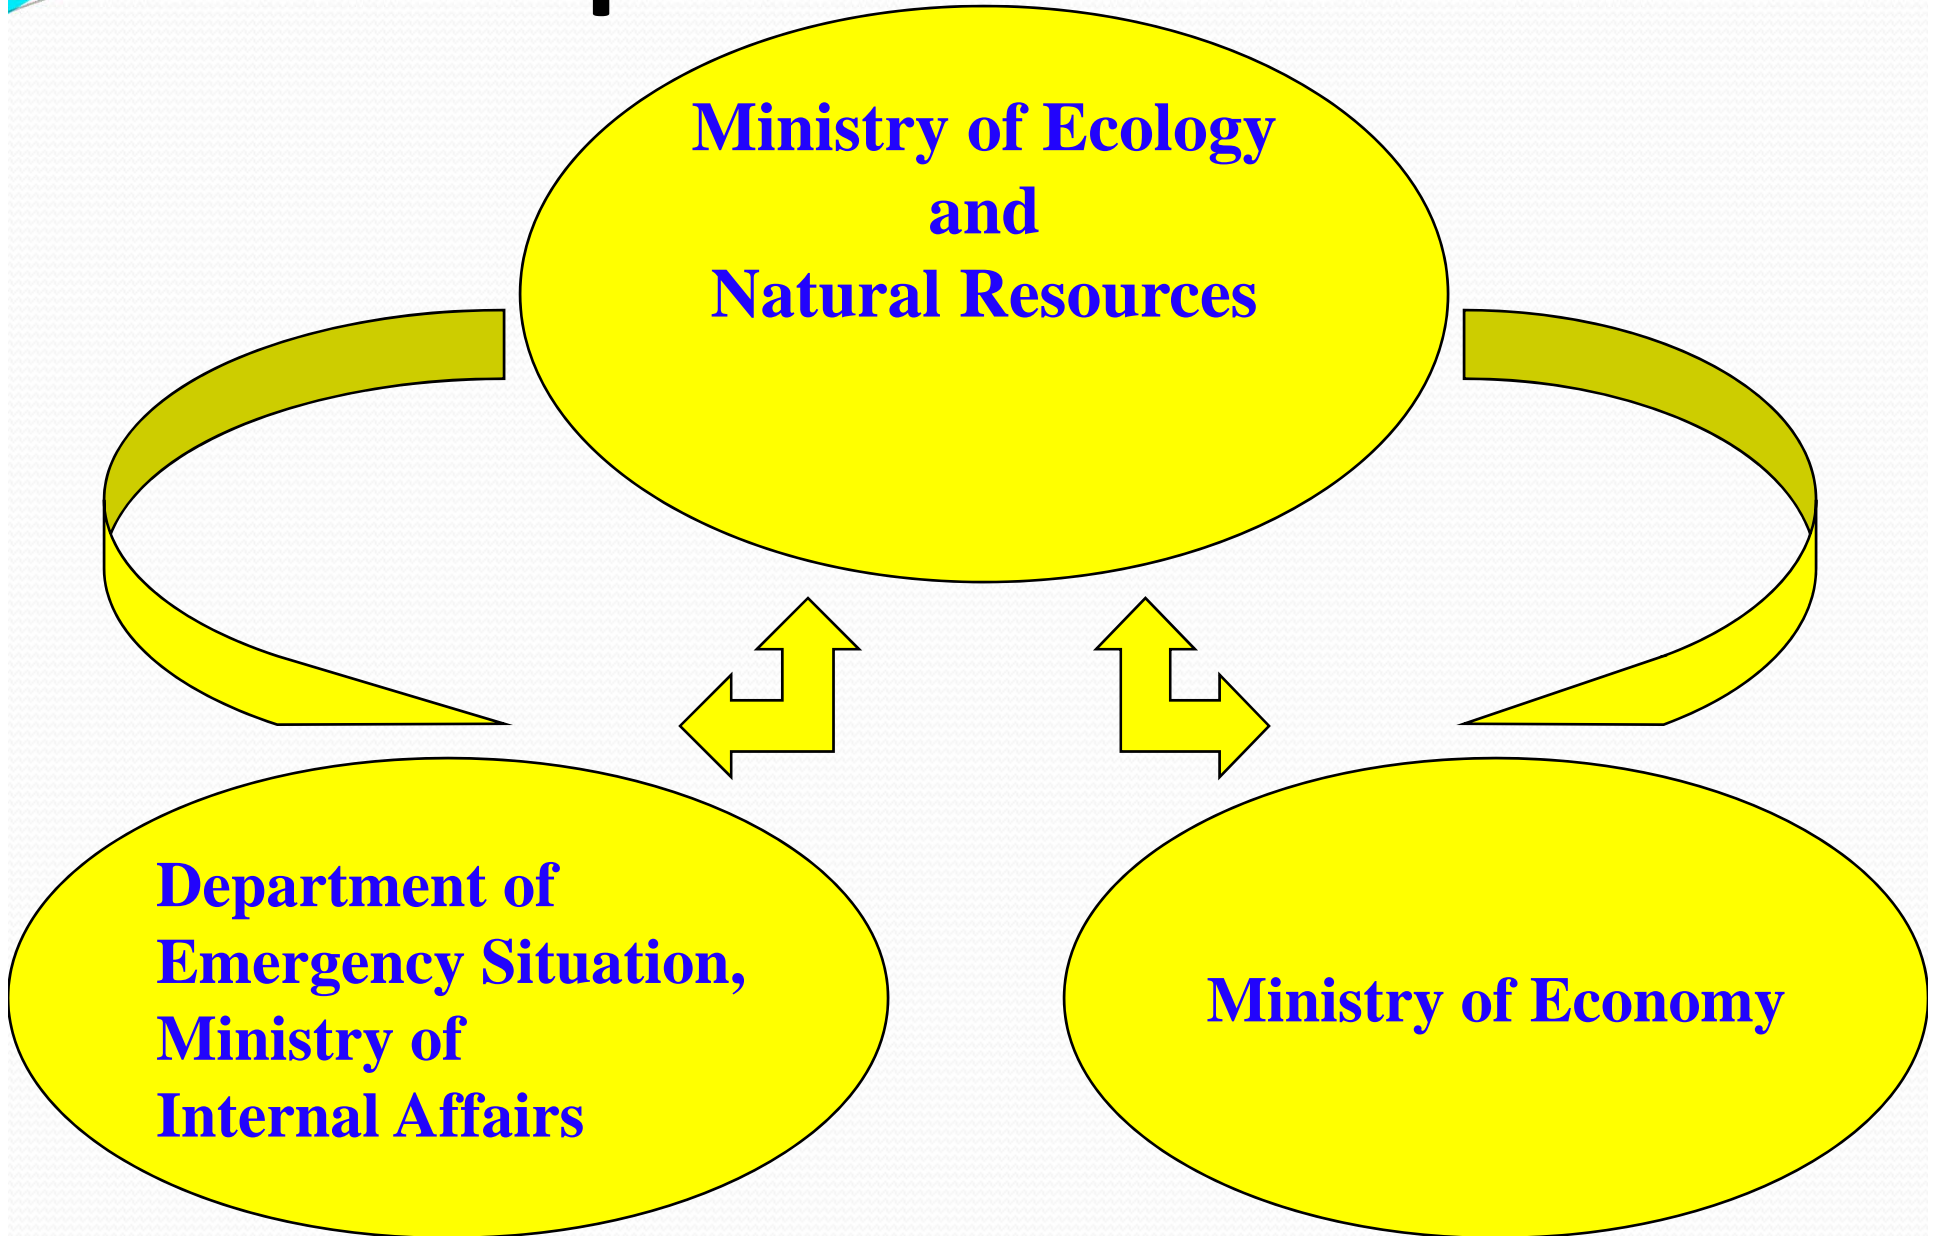

# Competent Authorities

**Ministry of Ecology  
and  
Natural Resources**
