

# DECHEMA Guideline Incident Investigation

ProcessNet Working Party 'Lessons from  
Process Safety Incidents'

# • Rational for the Guidance

The aim of the ProcessNet Working Party “*Lessons from Process Safety Incidents*” is to support companies of the chemical industry in the investigation of incidents relating to plant and process safety. This was the rationale for developing this guideline. With the aid of the guideline, incidents relating to plant safety can be investigated to identify causes and derive corresponding measures.
