Content

1. Overview
2. What are the difficulties?
3. Approaches for supervision
4. Discussion

1. Overview

Logistics companies as service providers for third parties

→ Often only storage and retrieval or transport of legally approved containers (drums, IBCs, etc.)

Smaller area requires approval at all

→ For this relatively high requirements

2. Difficulties

Small part of the company

Only storage and retrieval and partly transport of containers

Operation of a hazardous materials warehouse as a service

2. Difficulties

Lower tier <--> Upper tier

(missing) Hazardous incidents manager

Public perception

3. Approaches for supervision

Establishment of SMS

Keep proportionality

Cooperation with other authorities

4. Discussion

Questions to the auditorium:

1. How do you supervise logisticians?
2. Are the requirements of the SEVESO Directive for logisticians appropriate?

Thank you for your attention!
