Evaluating Implementation

- **Authority**

A process followed by the competent authority is described in details in Joint Ministerial Decision No 172058/2016.

- **Operator**

Information on the public is reviewed by the operator every five (5) years or earlier in the case of an establishment amendment.

Evaluating Implementation

- **Confidentiality**

The operator completes the forms not including confidential information. Confidential information is usually related to industrial know-how, public security, national defence etc.

Guidance and Tools

- **No available guidance**
- **Standard forms related to the “information to public” are provided to operators and regional authorities in order to be completed and published to the Regional website**
