AGENCY AUSTRIA **umweltbundesamt**<sup>U</sup>

# Beneficiaries in Croatia

## Beneficiary organisation(s) in Croatia

The main beneficiary is the **Croatian Agency for the Environment and Nature (CAEN)**. Close cooperation, communication and coordination is realised with the following project stakeholders:

### **Ministry of Environment and Energy (MEE)**

National Protection and Rescue Directorate (NPRD)

Ministry of Construction and Physical Planning (MCP)

Ministry of Health

Croatian Institute for Toxicology and Antidoping (CITA)

Croatian Chamber of Economy (CCE)

Ministry of Economy, Entrepreneurship and Crafts

Ministry of Defence

Ministry of Culture

Ministry of Finance - Customs Administration

Ministry of the Interior

Hrvatske vode (Croatian Waters)

Local governments and regional government

All relevant inspections

# „CRO SEVESO” objectives

The overall objectives are:

- better monitoring of chemicals and reporting on chemicals and dangerous substances together with their quantities in the Republic of Croatia
- better knowledge in collecting, maintaining and validating of data which results in better quality of data
- higher awareness and preparedness of the operators and of the concerned population

# Twinning Project

---

The project is about information

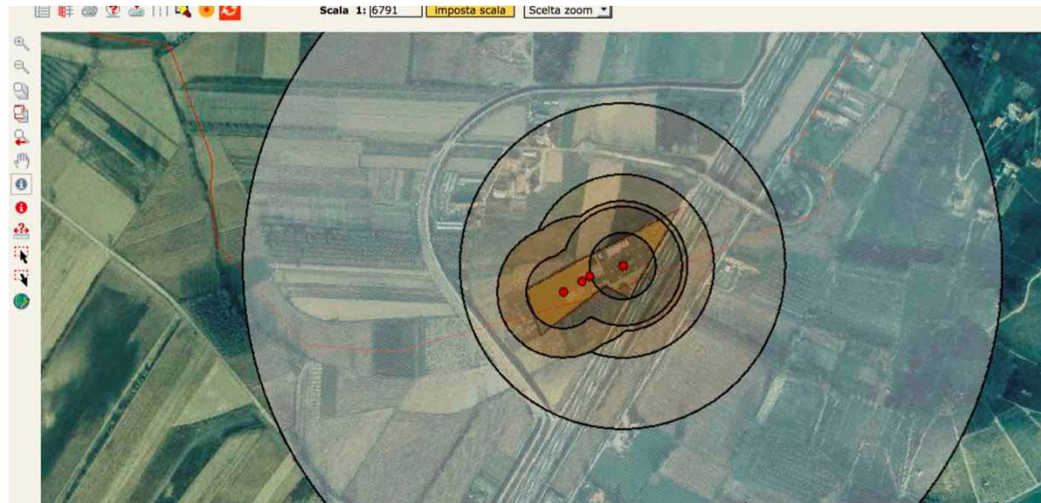

What does it mean in practice ?

# „CRO SEVESO” goals

## Goals:

- improvement and upgrading of the current Seveso databases in the Croatian Agency for the Environment and Nature (CAEN) (Register of Establishment in which Dangerous Substances are present and the Register of Reported Major Accidents - databases REDS/RRMA) and integrating REDS/RRMA databases into Croatian Environmental Information System (CEIS)
- Improvement of capacities of all involved competent authorities and other stakeholders through workshops and seminars

# Activities

Livorno, 10.5.2018.

Study visit Italy 6. – 12.5.2018  
Study visit to Austria, September 2018.

Hague, 26-28.9.2018.

Technical Working Group on Seveso Inspections (TWG2)

# Activities

Study visit Croatia – SEVESO establishments 17. – 19. 4.2018.

# Expected Results

---

Result 1. Reporting towards the Republic of Croatia and European Union improved

Result 2. Software for validation tools for Safety Management System (SMS) and Major Accidents Prevention Policy (MAPP) integrated; Geographic Information System (GIS) integrated

Result 3. The Central Seveso Information System (CSIS) integrated into the Croatian Environmental Information System (CEIS), combined with implementation of Safety Management System (SMS) and Major Accidents Prevention Policy (MAPP) procedures and Geographic Information System (GIS)

Result 4. Institutional capacity of the Croatian Agency for the Environment and Nature (CAEN), competent authorities (CA) and other stakeholders strengthened

# Thank you for your attention
